Dear Nancy,

Thank you for showing me the completed Healing Dreamscapes from our workshops at Anshe Emet. It was special to see the results of our sessions, and to know that you graciously worked with our participants beyond our time together. Although the pieces are remarkable on their own, the process of creating them was most significant from my perspective.

We aimed to create a workshop in which people would experience healing through creating a dreamscape with you, and I commend you on your ability to facilitate this process. It is a deeply personal experience, and you connected with each participant individually to engage them. Your compassion, empathy and patience allowed each soul express itself beautifully. Working with visual images was a new experience for most of the participants, and it seemed that they enjoyed selecting their images moving them around to create a dreamscape.

I want to thank you for sharing your gifts with Netivot/Pathways: A Jewish Center for Growth and Healing at Anshe Emet Synagogue. Healing Dreamscapes is a journey for which you are the perfect guide, and I hope that you will have many more opportunities to share this experience.

Please let me know how I may be able to assist you in sharing your gifts. I look forward to working with you again in the near future.

Blessings,

Rabbi Heather Altman
